Centuries ago, people used to fear what they called the pestilence. "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is it is merely that simple, common thing called constipation. It makes people listless, causes dizziness, headache, loss of appetite, loss of sleep, foul breath, distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

Sent 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

The True Remedy.

W. M. Repline, editor of Tiskilwa, Ill., Ohio, says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good. Because this remedy has a record of cures and testimonials is guaranteed. It never fails to satisfy. Trial bottles free at Collins' drug store.

A balloon was sent up from Berlin in 1805 equipped with self registering thermometers and barometers. It came down in Bosnia with the instruments in good condition. The barometer registered an elevation of 58,572 feet, and the thermometer a temperature of 53 degrees below zero F.

Incontinence of water during sleep stopped immediately by Dr. E. D. Drach's ANTI-DRACHETIC. Cures children and adults alike. Price \$1. Sold by Johnson & Henderson, druggists, Owosso, Mich. 4-30-98

For Many Years.

"I have been troubled for many years with stomach difficulty which caused dizziness. I began taking Hood's Sarsaparilla and it has done me more good than any other medicine that I have ever tried. I am not now troubled with my stomach." K. G. Beckwith, Dimondale, Michigan.

Hood's Pills are purely vegetable and do not purge, pain or gripe. All druggists.

Entrusted by a Flower.

To the monastery of the Grand Chartreuse women, as a rule, are inexorably refused admittance, only a very few having the privilege of seeing the Carthusians (monks of the order) at home. A story is told of a French daughter of Eve, blessed with even a greater share of curiosity than that possessed by the generality of her sex, who, having heard from her husband and brother of their late interesting visit to the monastery, tried by every means in her power to effect an entrance there, but all to no avail. Determined, however, by hook or crook, to succeed, she at last hit upon the happy idea of presenting herself there dressed as a man, managing to persuade her husband to allow her to do so, and to take her with him on his next visit.

On arriving at the gates of the monastery she entered unchallenged with the remainder of the party, but while in the garden the conducting monk, leaving her side, gathered an exquisite rose, which he brought and presented to her with a courtly bow, proving that he at least was not deceived by her disguise. She, too, foolishly betrayed herself by her ready grace and charm of manner in accepting the rose, which she did most willingly. Needless to say that after this incident she never penetrated into the interior of the building nor saw what she was dying to see, but returned unsatisfied, a sadder and a wiser woman, with a high appreciation, however, of the keen discernment of the cloistered ones.

According to a celebrated anatomist there are upwards of 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. Indigestion is want of juice, weakness of glands, need of help to restore the health of these organs. The best and most natural help is that given by Shaker Digestive Cordial. Natural, because it supplies the materials used by the glands to prepare the digestive juices. Because it strengthens and invigorates the glands and the stomach, until they are able to do their work alone. Shaker Digestive Cordial cures indigestion certainly and permanently. It does so by natural means, and therein lies the secret of its wonderful and unvaried success.

At druggists, price 10 cents to \$1.00 per bottle.

Enormous Lifting Power.

The shellless limpet pulls 1,984 times its own weight when in the air and about double when measured in the water. Fleas pull 1,493 times their own dead weight. The Mediterranean cockle, Venus verrucosa, can exert a pulling power equal to 2,071 times the weight of its own body. So great is the power possessed by the oyster that to open it a force equal to 1,919 times the weight of its shellless body is required. If the human being possessed strength as great in proportion as that of these shellfish, the average man would be able to lift the enormous weight of 2,976,000 pounds, pulling in the same degree as the limpet. And if the man pulled in the same proportionate degree as the cockle he would sustain a weight of no less than 3,106,500 pounds.—Worthington's Magazine.

Everybody Says No.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and positively on kidneys, liver and bowels, cleansing the entire system, dispels colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today; 10, 25, 50 cents. Solid and guaranteed to cure by all druggists.

Making Love Up a Tree.

Billing and cooing among the Fijians is a curious feature in their social customs. It is decidedly against the rule to do any courting within doors. The gardens or plantations are the spots held sacred to Cupid, and the generally approved trysting place of lovers is high up among the branches of a breadfruit tree.

You may often walk around a plantation on a moonlight night and see couples perched 40 feet from the ground in the breadfruit trees, one on each side of the trunk, a position which comes fairly within the limits of a Fijian maiden's ideas of modesty.

One application of Dr. Thomas' Electric Oil takes away the pain of the most severe burn. It is an ideal family liniment.

Remedial Trips.

New Family Physician.—And now, my dear madam, will you briefly tell me what you have already done for your illness?

Madam.—Europe and North Africa.—Detroit Journal.

The cost of a well bred pack of foxhounds is about \$5,000, and the annual bill for keep about as much.

Piles! Itching Piles!

SYMPTOMS.—Moisture, intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate. Swelling very sore. SWAYNE'S Ointment stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son Philadelphia.

To Take a Man's Measure.

Tailors can take a customer's measure very quickly by a device which has three graduated brackets sliding on each other to fit on a man's back and arm, with tape measures attached to them at the proper positions for taking all the measures.

Farm for Sale.

Eighty acres, well improved. One mile east of coal bank store, buildings, wells, electric, fruit and timber. Inquire of us at address.

JOHN H. MOYSE, Cornua.

FOR SLENDER WOMEN.

Don't walk to excess. A short walk will be beneficial, but long walks are flesh reducing.

Don't wear black. Black has a tendency to make any one look slender. Light clothes are the most becoming.

Don't strive for long waisted effects or use pointed girdles. The longer you make yourself look the thinner you will appear.

Don't have your lingerie too close fitting. Have your underskirts gathered around the hips, and a full front in your under-waist is good.

Don't stay up too late at night. Get at least nine hours' good sleep. A woman needs more sleep than a man, and nothing keeps her in good condition like lots of sleep.

Don't wear stripes. Checks, plaids and horizontal effects are better for thin women. They should strive for becoming, deceiving effects if they study art in dressing at all.

Don't forget that a well rounded figure makes you look younger and is considered a mark of beauty. The starched foods, massage, moderate exercise, rest and sleep will produce this.

Don't wear a large, broad brimmed hat. It looks out of proportion, especially as the face of a slender girl is usually small. A moderate sized or small hat will be found much better.

Don't fail to have your gowns made with an eye to hiding the fact that you are too slender. Full waists, fancy fronts and bouffant effects are best, while draped skirts or very full ones will detract from your slender appearance.

FRIENDSHIP.

A friend is never known till a man has need.—Heywood.

A very simple intellectual mechanism answers the necessities of friendship.—Holmes.

Certes gold no silver both sought so moche worth as the good will of a trowe friend.—Chaucer.

We must accept or refuse one another as we are. I could take a hyena more easily than my friend.—Thoreau.

There is as yet no culture, no method of progress, known to men that is so rich and complete as that which is ministered by a truly great friendship.—Phillips Brooks.

Friendship must be something else than a society for mutual improvement. Indeed, it must only be that by the way and to some extent unconsciously.—Stevenson.

The nearer the intimacy, the more cuttingly do we feel the unworthiness of those we love, and because you love one and would die for that love tomorrow you have not forgiven and you never will forgive the friend's misconduct.—Stevenson.

GOLD NUGGETS.

Climbing the mountains of Alaska is hardly like climbing the golden stairs.—Salt Lake Herald.

When a man has the gold fever, let him alone. Argue not with an argonaut.—Boston Transcript.

A great deal is said about the thirst for gold and the hunger for gold. Now, which is it?—Boston Transcript.

That newly discovered California gold deposit seems to be a good pocket to pick.—New York Mail and Express.

The Klondike fever continues, but the patients will cool off very rapidly when they get there.—Rochester Times.

It should be remembered in connection with the Klondike discoveries that if the men who experience failures are not able to get back to tell about it.—Washington Star.

The idea seems to prevail that all one has to do to get gold is to go to Klondike and "pick it up," but picks are quoted in that region at \$15 each.—Philadelphia Record.

MATCHES.

Wax matches are employed in Europe to an extent vastly greater than in this country.

An average of eight matches for each man, woman and child is used in the United States daily.

The body of a wax match is made by drawing cotton strands, 20 or 30 at a time, through melted tallow.

It costs more to strike a match in France than in any other civilized country, because the business is monopolized by the government.

Sweden is the greatest match producing country in the world, although the industry is conducted on an enormous scale in the United States and elsewhere.

The safety match was invented by a Swede named Lundstrom in 1855. The head of the safety match contains chlorate of potash and sulphur, while the friction paper on the box is spread with a paste of amorphous phosphorus and antimony.

The Sensitive Check.

Nine out of ten persons, if asked what is the most sensitive part of the body, will reply the tip of the tongue. This is a mistake. Those engaged in polishing billiard balls or any other substances that require a very high degree of smoothness invariably use the cheek bone as their touchstone for detecting any roughness.

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep, and cures that tired feeling. Remember,

Good Blood

Hood's Sarsaparilla

Is the best in the world for True Blood Purifier. Hood's Pills take care, easy to operate, 25c.

CASE COMPROMISED.

STRIKERS TO VOTE ON SIXTY-FIVE CENTS PER TON.

What Price to Rule Until the End of This Year and Next Year's Prices To Be Fixed by Conference Between Miners and Operators.

Columbus, O., Sept. 4.—The following circular was issued last night by the national executive board. It is addressed to the mine workers who have suspended work in the different states: "You are hereby notified that a convention will be held at Columbus, O., at 10 o'clock a. m. on Wednesday, Sept. 8, 1897. At a conference held at Columbus, O., on Sept. 2 and 3, between the national executive board and district presidents of the United Mine Workers of America and a representative committee of the Pittsburgh district operators whom we consented to meet only after it became apparent that a national conference of operators and miners could not be convened, the following propositions were submitted by the representatives of the Pittsburgh operators to the executive board and district presidents, as the basis of a settlement to terminate the present strike:

"First.—The resumption of work at a 64-cent rate of mining. The submitting of the question to a board of arbitration to determine what the price shall be, the maximum to be 69 cents and the minimum to be 60 cents a ton, the price to be effective from date of resuming work.

"Second.—A straight price of 65 cents a ton to continue in force until the end of the year with the additional mutual understanding that a joint meeting of operators and miners shall be held in December, 1897, for the purpose of determining what the rate of mining shall be thereafter.

Board Urges Acquiescence.

Your executive board and district presidents, after much deliberation and a thorough consideration of the two propositions, do recommend the latter as in their judgment the best that can be secured, because of circumstances that are apparent to all who study market conditions since the inauguration of the strike.

"You, however, are the court of final adjudication, and must decide for yourselves what your action shall be and when work shall be resumed. Additional reasons will be given and a full report made of the general situation at the convention. We would further advise that delegates come untrammelled by resolutions, and uninstructed other than to act in your last interests. At this time it is deemed advisable for the reason that provisions are made in the uniformity agreement now pending in the Pittsburgh district, and which it is expected will be operative in that district on and after Jan. 1, 1898, to arbitrate the question of relative differential between pick and machine mining, which will, we anticipate, do much towards furnishing us with more reliable data on that question than we possess at present, and to that extent will be beneficial to us in settling questions as between machine and pick mining.

This is signed by the members of the national executive board and district presidents.

NOTES OF THE STRIKE SITUATION.

Settlement Made at Dubois, Pa.—Marchers Routed—Against 65 Cent.

Dubois, Pa., Sept. 8.—A settlement of the miners' strike in this region was practically effected yesterday afternoon. The committee appointed at the convention last week to conduct all negotiations looking toward a settlement met General Manager Robinson here and an article of agreement was signed. The proposition made by Robinson will be submitted to the miners at a meeting to be held today, and if acceptable work will be resumed at all mines on the 9th.

The agreement provides that a committee from the miners go to the Pittsburgh region and elsewhere and get fully posted on prices for machine mining and other labor and the company will pay the highest proportionate scale paid in any competitive region. Resumption means employment for 6,000 miners and 1,000 railroad men.

Hazleton, Pa., Sept. 8.—Sheriff Martin, of Luzerne county, with a number of deputies yesterday routed about fifty strikers who were planning a descent upon the workmen at Cranberry colliery. The strikers in the meantime formed in line ready to march, but Organizer John Fahy stopped them and read the sheriff's proclamation prohibiting such a demonstration. After arguing with the men for some time he persuaded them to return to their homes. The strikers in the afternoon stole a march on the deputies and drove the workmen away from the Latimer and Erbervale collieries. When the deputies arrived they chased the strikers into camp, keeping up a running fire.

Bellair, O., Sept. 8.—At the meeting of the miners in this city and the Wheeling creek mines last night the proposition to instruct their delegates to favor the ratification of the 65-cent basis of settlement was defeated by a large majority.

Brazil, Ind., Sept. 8.—Labor Day parade here was almost a mile long, and banners with inscriptions on them relating to the rights of workmen were numerous. The exercises were held at Hendrix grove, and fully 5,000 persons listened to addresses by E. S. Holliday, of this city, and Captain Henry Allen, of Terre Haute. At noon many of the miners and their families created much sympathy by congregating under the shade trees on the court house grove and serving dry bread for dinner, this being the only food they had.

Moweaqua, Ills., Sept. 8.—The strike is practically at an end here. Miners are daily applying for work and coal is again being shipped.

Two Little Boys Drowned.

Stevens Point, Wis., Sept. 6.—Two little sons of Adam Majewski, Mike and August, aged 7 and 5 years respectively, were drowned while playing on the banks of the Wisconsin river Saturday.

It is not known exactly how the accident happened. The bodies were recovered.

Michael Wins Another Victory.

Hartford, Conn., Sept. 7.—The five-mile professional race run yesterday was won by Jimmy Michael; time, 11 minutes, 25 seconds.

The Cruel Knife!

The alarming increase in the number of deaths which occur as the result of a surgical operation is attracting general attention, and a strong sentiment is against such methods of treatment as are being developed among the most intelligent classes. It seems that in almost every case for which the doctors' treatment is unsuccessful, the learned physicians decide at once that an operation must be performed, and the keen blade of the surgeon is recklessly resorted to.

Doctors are human, and of course are liable to make mistakes, but their mistakes are too fatal to be indulged in promiscuously, and as so many lives are sacrificed in this manner, it is but natural for the public to believe that half the operations are unnecessary, besides being a fearful risk to human life, even if successful.

It is a positive fact, however, that all operations are not necessary, and that a majority of them are absolutely undertaken without the slightest chance of success. The doctors have never been able to cure a blood disease, and a surgical operation is their only method of treating deep-seated cases, such as cancer and scrofulous affections. Aside from the great danger, an operation never did and never will cure cancer, as the disease never fails to return. Cancer is in the blood, and common sense teaches anyone that no disease can be cut from the blood.

Here is a case where the pain inflicted on a six-year-old boy was especially cruel, and after undergoing the tortures produced by the surgeon's knife he rapidly grew worse. Mr. J. N. Murdoch, the father of the boy, residing at 379 Snodgrass street, Dallas, Texas, writes:

"When my son, Will, was six years old, a small sore appeared on his lips which did not yield to the usual treatment, but before long began to grow. It gave him a great deal of pain, and continued to spread. He was treated by several good doctors, who said he had cancer, and advised that an operation was necessary.

"After much reluctance, we consented, and they cut down to the jaw bone, which they scraped. The operation was a severe one, but I thought it was the only hope for my boy. Before a great while the cancer returned, and began to grow rapidly. We gave him many remedies without relief, and finally upon the advice of a friend, decided to try S.S.S. (Swift's Specific), and with the second bottle he began to improve. After twenty bottles had been taken, the cancer disappeared entirely and he was cured. The cure was a permanent one, for he is now seventeen years old, and has never had a sign of the dreadful disease to return."

S.S.S. is far ahead of all other blood remedies, because it is the only one which cures deep-seated obstinate blood diseases such as Cancer, Scrofula, Eczema, Catarrh, Rheumatism, etc. It is the only blood remedy guaranteed

Purely Vegetable

containing not a particle of mercury, potash, or other mineral ingredient, which are so injurious to the system. S.S.S. is sold by all druggists.

Books on Cancer and Blood Diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Ga.

Before submitting to the S.S.S. knife, try S.S.S. the only real blood remedy.

Value of the Home Market.

All these protests from foreign countries against our new tariff law serve only to emphasize the value which those countries place on the American market. The free traders have always been the devoted friends of foreigners and have imbibed many of their ideas. It is a great pity that they have not learned the one thing most vital to them, and which is so clearly recognized by their foreign friends—viz, the great value and importance of the American home market.
